>>> PROFILE

Junior Full-Stack Developer | Freelance Creative

Multi-passionate individual with an insatiable curiosity for life and learning, an essential anti-aging strategy for the mind.

Highly capable, impactful, unconventional thinker with a unique combination of tactical and interpersonal skills acting as a resource for alternative perspectives. Spiritually conscious individual seeking to merge creativity, technology and purpose.

Tech represents what I value most in life, change, evolution and growth. At its core it requires initiative, adaptation and curiosity which are individual skills I seek to continuously nurture and essentially master.
